

Creativity

Creativity is about:

- Ideas
- Imagination
- Innovative outcome
- Alternatives
- Originality
- Risk-taking
- Making choices
- Individuality

Creativity will enable us to solve the problems of the future and secure our survival. We believe creativity is important because it allows children to express their individuality. Through freedom of choice, pupils grow in confidence and become more willing to take on challenges with motivation and enthusiasm. We encourage pupils to be imaginative in all aspects of their learning and to generate new and novel ideas. We strive for our children to achieve innovative outcomes as a result of decision making, risk taking and originality. We offer a plethora of resources and opportunities within the curriculum to allow for freedom of choice.

Creative learners will:

- Generate novel ideas through making connections and exploring a range of possibilities
- Use their imagination to produce new ideas and transport themselves to unknown worlds, envisage what could be and think of things that they have never experienced
- Present their learning in an innovative way
- Be curious, asking, 'what if' questions playing with ideas and searching for alternative solutions
- Take risks in all aspects of their learning and feel comfortable that there may not be a right or wrong answer
- Make free choices about resources and learning environment and gain mastery over the tools and materials that they work with.

What will you see in Sparsholt C of E Primary School?

- Dramatic and sporting performances which celebrate individuality
- Imaginative displays sharing high quality outcomes
- Integrated projects which allow opportunities for children to follow their own lines of enquiry and create something unique
