

# Maple Class Autumn 2022 Stones, Bones and the Metal Man

Choose a piece of the puzzle as your home learning, record what you have completed by taking photos and sharing them with the class.

Create your own Neolithic, Bronze Age or Iron Age weapon artefact. Try to use only materials they would have had in the stone age.

Build your own model of Stonehenge using a material of your choice. Research the different stone circles in the UK and plot them on a map.

People living from the Stone Age through to the Iron Age had to catch or collect their food. Write your own recipe for a meal with caught or collected ingredients.

Create a leaflet for 'How to survive the Stone Age'

Imagine you are transported back to the Stone Age and need a guide to help you survive.

Devise a quiz about the Neolithic period, Bronze Age and Iron Age.

Conduct a survey of things made of metal in your home.

**Paperclip challenge**  
How many paperclips can you attract to a magnet?

Create your own Iron Man or robot out of recyclable materials

Design an experiment to explore rusting of metal.

Dig deep and complete your jigsaw with  
Courage, Compassion and Creativity.
