Dear Parents

Librasoft – Consent Request

Now that we have moved our library to a bigger space and collected into one place, all the fiction and non-fiction books we have in school, we are looking to make use of an online school library system that will support our children on their learning journey.

We have chosen a system called Librasoft which offers the following features:

- Borrow and return ease of flow
- Ease of addition of new books
- Pupils can rate and review their favourite reads
- Easy search and reserve facility for both teachers and pupils
- Stock checking to make sure all our books are in the right place

We are, therefore, writing to request consent from you to use your child's forename and surname name, gender and school's unique pupil number for use with the database supporting the Librasoft application.

Librasoft is cloud-based, hosted in the UK and fully compliant with the GDPR regulations. Your child's personal information and their activity on the app are not made public. You can withdraw your consent at any time by contacting the school's data protecting officer – Carol Sheppeck.

Attached is a reply slip requesting parental consent to register your child. Please return to the school office as soon as possible.

With best wishes

Mrs E Hanratty
Headteacher
