Dear Parents/ Carers,

As part of our review of the Science Curriculum, we are looking for donations to help build up our Science resources.

If you have any of the following **spare** at home, we'd really appreciate if you might consider donating these items to the school to help. I absolutely don't want people to go and buy things especially, it's purely a drive to see what we can recycle/ reuse/ make use of.

If you can, please send items into Beech Class on any morning (in a bag or box so that they can be quarantined). Your donated items will then be sorted and stored for use in our science experiments.

Thank you so much in advance.

Miss Barber
